YOUR BITE SIZED PIECES OF MARKET INTELLIGENCE FOR THE AUSTRALIAN ECOTOURISM INDUSTRY

Conference success in Townsville

Ecotourism Australia's 2006 conference 'Building on Natural Advantages' was held with great success in Townsville in tropical north Queensland from 30 October to 3 November. Around 300 delegates attended the five-day conference, which broke into regional themed workshops in Townsville, Magnetic Island and Charters Towers. An outcome statement from the 'Impacts of Climate Change' workshop held on beautiful Magnetic Island has been drafted and will shortly be finalised and released. Feedback indicates delegates found the conference educational and enjoyable, with full thanks for the unending support from the conference's major sponsors Townsville City Council and Townsville Enterprises Limited.
