International Biodiversity Day 2007

Townsville City Council, Conservation Volunteers Australia (CVA) and Mundy Creekwatch will be celebrating International Biodiversity Day (22nd of May 2007) by conducting a tree planting event along Mundy Creek on Saturday the 19th of May.

This is the communities chance to help the local environment, meet local people and enjoy a BBQ.

Participants will be encouraged to think and share their knowledge about how the health of the Mundy Creek is affected by natural and man made influences and what the community could do to ensure the creeks protection.

Residents who would like to join Mundy Creekwatch, or just participate on the day can contact Mick Brady at Conservation Volunteers Australia on (07) 4721 4077. Activities
