

## Dalrymple Road Community Planting

You are invited to join with staff and volunteers from the Community Environment Fund and Townsville City Council's Greening Townsville Program for a community planting event along Dalrymple Road.

500 local native trees, shrubs and ground covers will be planted to contribute to the expansion of native urban habitat and to help reduce the visual impact of the transmission line in the area.

Everyone is welcome to participate in this community planting event. All site and ground preparation (including hole digging) will be done by Townsville City Council's Greening team prior to the event. Activities on the day will include tree planting, fertilising, mulching and watering.

### Event Details

**When:** 8:30am to 11am  
Sunday, 9 March 2008

**Where:** Dalrymple Road  
(Cnr of Nathan Street/Opposite Bunnings Warehouse, under the marquee)

**Bring:** Hat, gloves, sturdy enclosed footwear, sunscreen and drinking water

A free sausage sizzle and refreshments will be provided for the event.

### Enquiries:

Please contact Townsville City Council's Integrated Sustainability Services on (07) 4727 9314 or mobile 0437 431 855 on the day of the event.

Note: In case of rain, unfortunately the community planting will be postponed.

### Community Environment Fund

The Community Environment Fund is a three-year project funded by a \$500,000 community grant from Powerlink Queensland, and \$500,000 from project partners the Townsville City Council and Thuringowa City Council.

The Fund brings business, local government and the community together on environmental projects which improve wildlife habitats, create recreational areas, provide job training opportunities and minimise the visual impact of the electricity infrastructure owned and operated by Powerlink.

### Greening Townsville Program

The Greening Townsville Program is a commitment to plant 10,000 trees per year through shade tree plantings, free trees, revegetation projects, community involvement and schools. Target areas include parks, streets, main roadways, industrial precincts, car parks, shopping centres, drains and waterways.
