## National Tree Day

# Dalrymple Road Community Planting

You are invited to join with staff and volunteers from the Community Environment Fund and Townsville City Council's Greening Townsville Program to celebrate National Tree Day with the planting of more than 1,000 trees at a community planting event on Dalrymple Road.

The event will mark the start of on-ground works on this Community Environment Fund and Greening Townsville project site. Local native trees, shrubs and ground covers will be planted to help reduce the visual impact of the transmission line and contribute to the expansion of native urban habitat.

Everyone, of all ages, is welcome to participate in this community planting. All site preparation (including hole digging and mulching) will be done by Townsville City Council's Greening Team prior to the event. Activities on the day will include tree planting, fertilizing, and watering.

### Event Details

**When** : 9:00am to 12:00pm on  
Sunday, 30 July 2006

**Where** : Dalrymple Road  
(between Bayswater Road and Nathan Street – meet near the car park behind the Warina Complex)

**Bring** : Hat, gloves, sturdy enclosed footwear, sunscreen and drinking water

A free BBQ will be provided with the assistance of the Northern Suburbs Lions Club – proud supporters of similar projects throughout the twin cities.

**Enquiries:** please contact Townsville City Council Environmental Management Services on 4727 9314 or 0437 431 855 on the day of the event.

Note: Tree species being planted on this project have been carefully selected to meet Powerlink's vegetation management guidelines.

### Community Environment Fund

The Community Environment Fund is a three-year project funded by a \$500,000 community grant from Powerlink Queensland, and \$500,000 from project partners the Townsville City Council and Thuringowa City Council.

The Fund aims to form partnerships and undertake projects that enhance the environmental properties of the Townsville and Thuringowa region, and to minimise the visual impact of the electricity infrastructure owned, operated and maintained by Powerlink Queensland.

### Greening Townsville Program

Greening Townsville Program is a commitment to plant 10,000 trees per year through shade tree plantings, free trees, revegetation projects, community involvement and schools. Target areas include parks, streets, main roadways, industrial precincts, car parks, shopping centres, drains and waterways.
